Earthquake 5.2 Magnitude, San Diego County, 14 miles NNW of Borrego Springs (FINAL)

On 06/10/16 at 0104 hours, a verified Magnitude 5.2 earthquake occurred 14 miles NNW of Borrego Springs in San Diego County, at a depth of 12 kilometers. There are no reports of damage or injuries from San Diego County or surrounding Operational Areas.

- The California State Warning Center (CSWC) continues to follow up with Cal OES Duty Officers and Agencies, there have been no changes noted.
- Caltrans Communications Center advises no damages, however inspection teams are still working.

Per the Cal OES EQTP Duty Officer (EQTP DO) on Friday 06/10/16:

- This occurred in a sparsely populated area of eastern San Diego County.
- The shaking was moderately felt locally and lightly felt throughout Southern California from Mexico to Los Angeles and east to the Arizona border. In general, additional aftershocks smaller than the main shock can be expected to occur diminishing in coming days. The Southern California on duty seismologist has been contacted. The Cal OES EQTP DO will continue monitoring and remain in contact with science agencies as appropriate.

Per the Cal OES Duty Officers:

- No report of damages, injuries or requests for assistance from San Diego, Imperial, Riverside and San Bernardino Operational Areas.

Per Cal OES 911

- No reports of 911 outages or issues.

Per the California Highway Patrol (CHP) El Cajon Area Office and Border Communications Center:

- Reported no known damages at this current time.

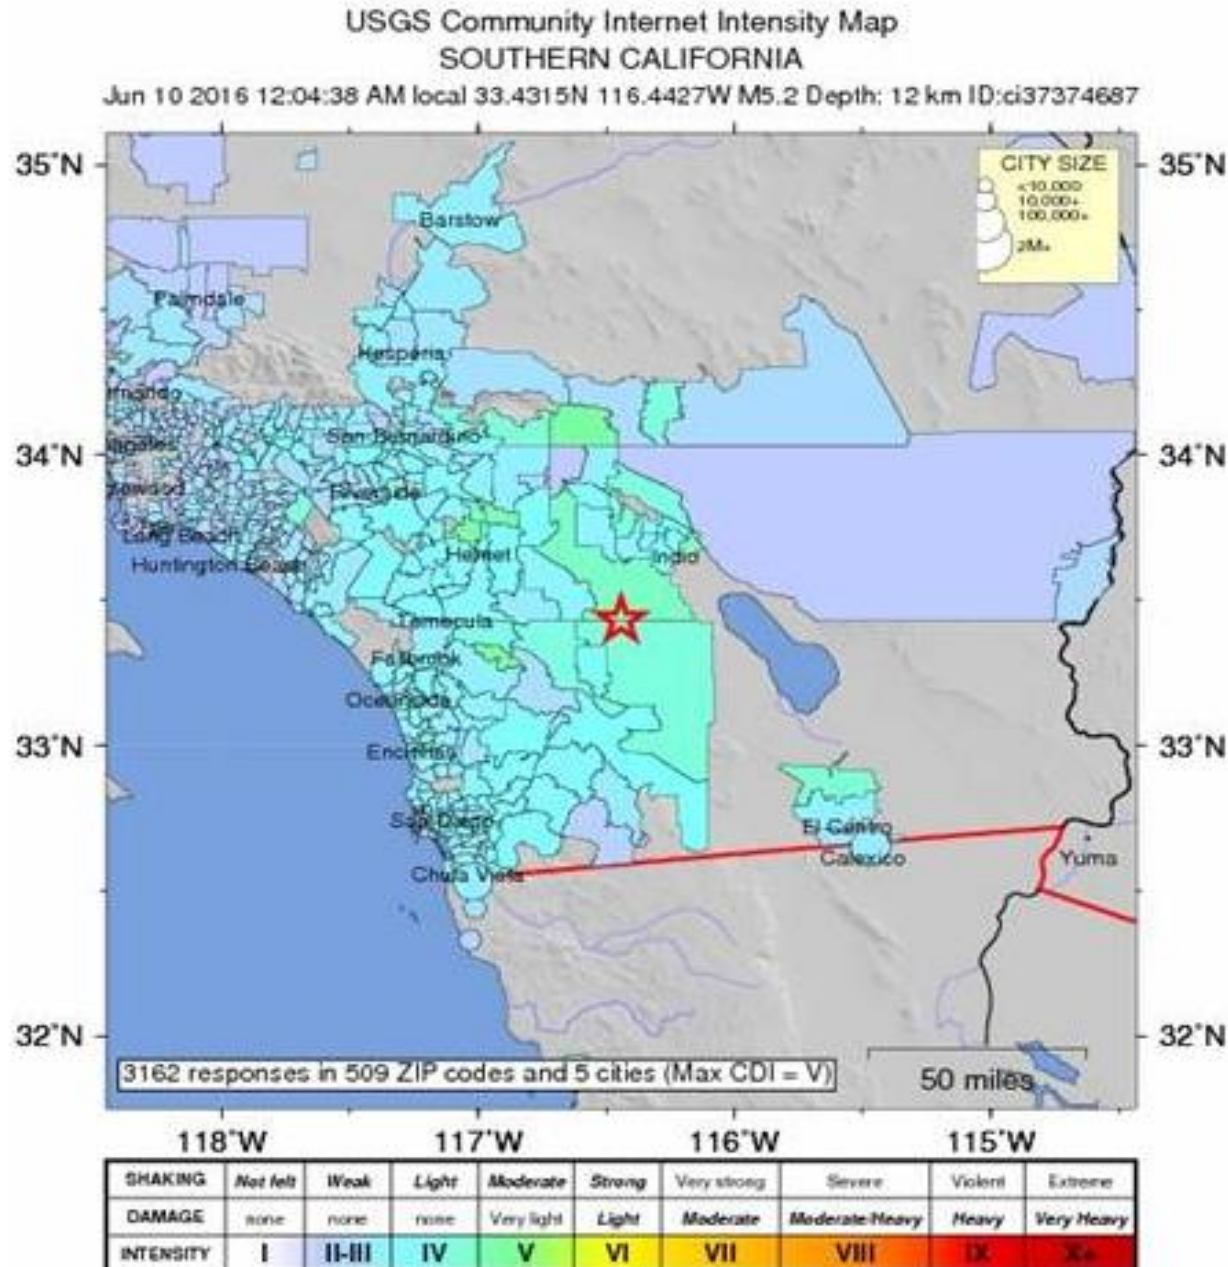

Per the California Department of Public Health Duty Officer (CDPH DO):

- No healthcare facilities were impacted and they will be monitoring the situation.

Per the Emergency Medical Services Authority Duty Officer (EMSA DO) and Region VI RDMHS:

- Have not received any requests for medical/health assistance.
- No impacts or damages at this time (Region VI RDMHS)

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

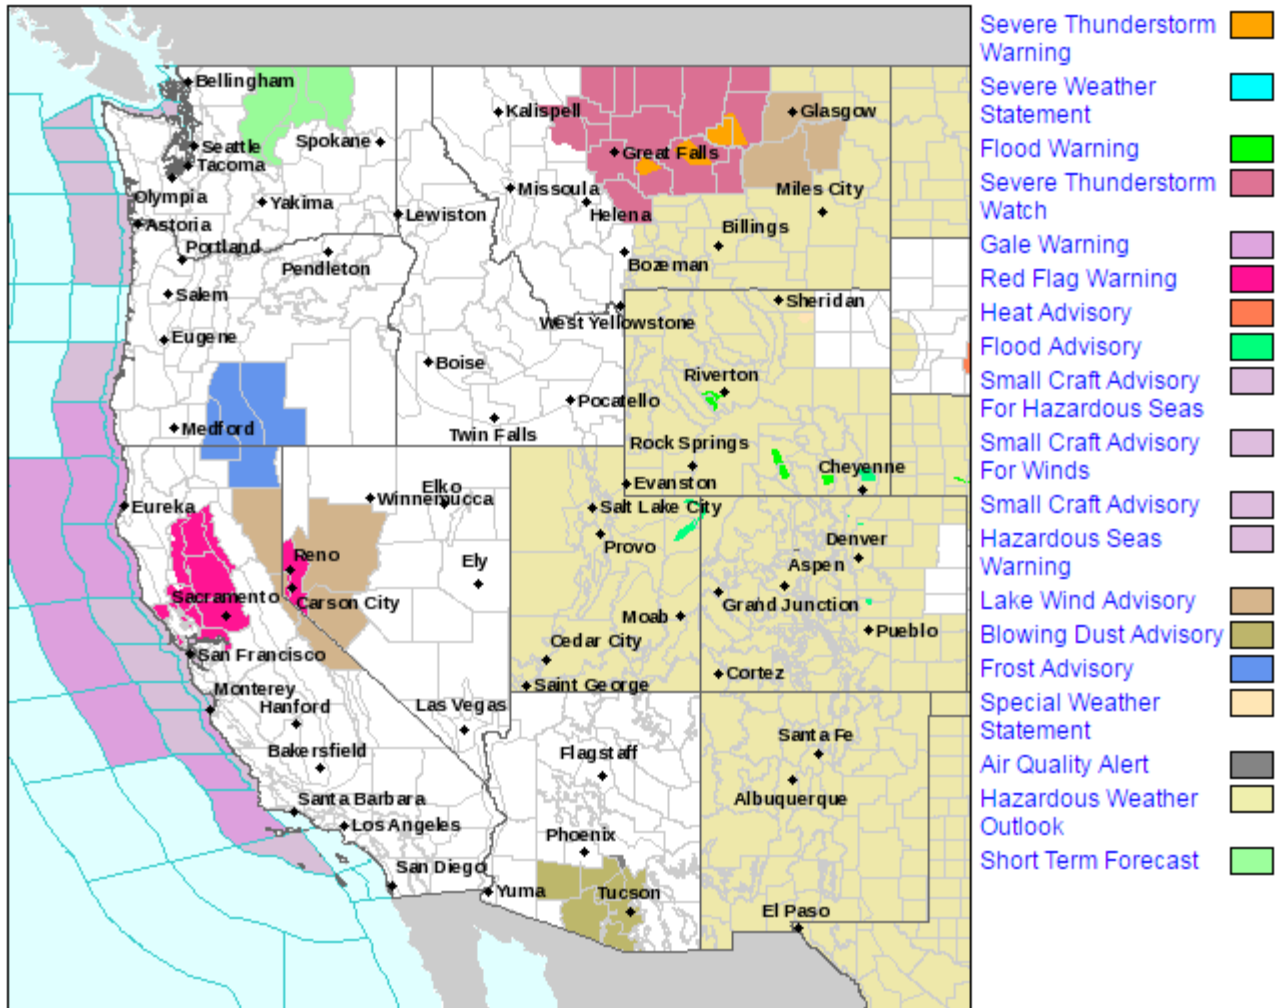

Low pressure just west of the Pacific NW will move into WA later today. The associated trough along the West Coast will move slowly east. Some light showers are expected in the far northern areas near the Oregon border today, but wetting rain (0.10 inch) will be hard to come by. There is a slight chance of isolated afternoon/evening mountain thunderstorms in the north today. Winds ahead of the trough - from the Cascade-Sierra crest east - will increase out of the S to SW today, reaching 25-35 mph with gusts to 40 mph. Winds will be stronger just to the east and southeast. RH will be 12-20% during the afternoon when the strongest winds are expected. As the trough passes over the central part of Northern California this afternoon and into eastern areas today, winds east of the crest will die off, but northwest to north winds will increase in and around the Sacramento Valley. Northwest to northeast winds in and around the Sacramento Valley will reach 20-30 mph with gusts to 40 mph Saturday morning and continue at slightly lighter speeds throughout the day and overnight, finally ending noon Sunday. RH will drop to 10-17% Saturday afternoon. Also, a weak low will be moving across Southern California with the trough this weekend, and enough moisture will wrap around it to bring a slight chance of some showers or isolated thunderstorms to the Tahoe area Saturday and Sunday. Another low pressure trough will drop south from the Gulf of Alaska early next week for a close repeat of the weather expected into this weekend, although it will probably be warmer. Gusty afternoon winds will return early next week as well.

SOUTHERN CALIFORNIA

A weak disturbance pushing up from the southeast today may bring a few showers to Southern California this afternoon and tonight, mainly affecting the mountains and deserts. Meanwhile, an area of low pressure in the Pacific Northwest will help drive a trough southward this weekend. The combination of the trough, onshore flow, and a deep marine layer along the coast, will all help to bring significant cooling to the region in the coming days. In fact many inland areas will experience below normal daytime highs by Sunday. In addition to the cooler weather, there may be enough moisture and instability both Saturday and Sunday to produce scattered thunderstorms across the Sierra. Storm movement will be to the northeast which will keep any potential lightning activity out of the lower elevations. West winds of 15-25 mph with gusts to 35 mph can be expected during the afternoon and evening hours today and Saturday in the Kern County Mountains, Antelope Valley, Banning Pass and the eastern side of the Cleveland National Forest. Across the coastal areas, night and morning low clouds and fog will become more widespread with only partial afternoon clearing in some areas. By Monday and Tuesday, the trough will be to the east of the region with a dry westerly flow aloft prevailing over the district resulting in warmer and drier weather.

CAL OES MISSIONS

New Cal OES Missions

- **2016-LAW-24242, 6/9/2016, 1207 hours:** Riverside County Sheriffs' Department (RCSD) requested search & rescue personnel for 6/10/16 to locate a missing 71 year old female missing since 6/7/16 at approximately 1230 hours in the Pinyon Pines area, Riverside County. The request was for 10 type II's and 10-20 type III's with rocky terrain conditions, scrub oak and predicted temperatures nearing 95 degrees. Orange, Los Angeles, San Diego, San Bernardino and Ventura County Sheriffs' Offices are providing SAR personnel for the search. The briefing was at 0700 hours this morning with search activities underway this morning. **Mission Ongoing**
- **2016-LAW-24130, 6/10/2016, 0807 hours:** Sgt. Storme, Butte County Sheriff Office (BCSO) is requesting additional resources to an existing mission to locate a missing drowning victim in Lake Oroville. BCSO is requesting three C3 water-dogs with tech support for tomorrow at 0800 hours at Lime Saddle Marina on Lake Oroville. LDO will be working with the Cal OES SAR K9 Coordinator to fill this mission request. **Mission Ongoing**

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2016-Cal OES-21764** (EF-8): Waterman Incident. Environmental Health Specialist to serve as a Food Inspector. This mission is expected to be open until June. Mission Duration: Through 06/30/16. **Mission Ongoing.**
- **2016-IREOC-21748**: Tasking Cal Trans to extend state highway right of way to facilitate hazard tree removal. This is a long term mission and is expected to remain in place through the summer months.
- **2016-Cal OES-20822** (EF-8): Waterman Incident. Four Crisis Clinical Psychologists/Counselors to provide in-home and workplace trauma counseling, coping, and referrals with expertise in mass shootings/terrorism. Mission Duration: Through 06/30/16. **Mission Ongoing.**
- **2016-Cal OES-20816** (EF-8): Waterman Incident. One Mental Health Services Coordinator to assess short and long term needs, plan and implement intervention counseling strategies focusing on Post Traumatic Stress Disorder with staff, families, and others impacted. Mission Duration: Through 06/30/16. **Mission Ongoing.**
- **2016-Cal OES-20652** (EF-10): Waterman Incident. Registered Environmental Health Specialist for Solid waste position from CDPH. Mission Duration: Through 06/30/16. **Mission Ongoing.**
- **2015-Cal OES-20498** (EF-8): Waterman Incident. Vector control specialist, and an Environmental Scientist for medical waste management. Mission Duration: Through 06/30/16. **Mission Ongoing.**
- **2015-Cal OES-20441**: Waterman Incident. Chief of Environmental Health Services replacement position at the San Bernardino County Department of Public Health in San Bernardino. Mission Duration: Through 06/30/16. **Mission Ongoing.**
- **2015-IREOC-19846**: One RAWS weather station to Amador OA – On scene 11/30/15, expected to be left in place until late spring. **Mission Ongoing.**
